

NATIONAL SECURITY AGENCY  
CENTRAL SECURITY SERVICE  
FORT GEORGE G. MEADE, MARYLAND 20755

OLC #78-3311

Serial: M552/0236/78

26 OCT 1978

Mr. Frederick Hitz  
Legislative Counsel  
7D Headquarters Building  
Central Intelligence Agency  
Washington, D. C.

Dear Mr. Hitz:

Enclosed is a copy of a letter from Mr. Donald L. Eirich, Associate Director, Logistics and Communications Division, General Accounting Office (GAO), requesting that Mr. Norman Grant Austen of their Denver Regional Office be granted access to Special Intelligence information. [redacted] Deputy Assistant Director, Plans and Reviews/Comptroller, NSA, is in agreement with this request to augment the GAO audit staff at the National Security Agency.

This request is forwarded for your approval in accordance with procedures established by Director of Central Intelligence Guidelines and Procedures for the Issuance of Compartmented Clearances to the Legislative Branch, dated 21 July 1978.

Please contact [redacted] Chief, Records and Processing, M552, [redacted] for additional information or to arrange for necessary processing relative to this request.

Sincerely,

[redacted signature box]

AT [redacted]  
Deputy Assistant Director  
Plans and Reviews  
National Security Agency  
Central Security Service

AT Dear [redacted]

This is to request a "Special Intelligence" (S.I.) clearance for Mr. Norman G. Austen, [redacted] of our Denver Regional Office. STAT

Mr. Austen's clearance is requested as part of our staff augmentation for our NSA audit site. Our planned expansion of audit activities at the Agency and our other audits of Command, Control and Communications systems require some field staff capable of assisting us on a day to day basis.

In this regard, Mr. Austen is totally familiar with the Command, Control and Communications area and would be able to satisfy our need with the appropriate clearance.

Recent work at the North American Air Defense Command (NORAD) demonstrates our need. For example, we completed a review of NORAD's ADP system upgrade known as the 427M Improvement Program (assignment code 941153) which required frequent contact with resident intelligence officers. As a result of our coordination, an unclassified report is being issued this month.

Also, we are currently reviewing NORAD's sensor systems (assignment code 941162) and have just received a Congressional request to review the World Wide Military Command and Control System and NORAD's Intelligence Data Handling System (assignment code 941168). However, in this instance, we have been advised by the NORAD Assistant Deputy Chief of Staff for Intelligence and others that our future endeavors, to be meaningful, will require a properly cleared person, on site, to see and analyze pertinent data, since most of this information is at the S.I. level.

Mr. Austen is our Assistant Team Leader at NORAD and is involved with all of the above mentioned work. He can best handle our day to day requirements at NORAD and also provide assistance to the Logistics and Communications Division, as needed, in other areas of the Western United States. He would, in effect, be our western U.S. representative. His work will be controlled by the GAO resident NSA audit manager. This will be a long-term commitment for Mr. Austen.

If you require further information regarding this matter, please contact me on 275-2601.

Sincerely yours,

  
Donald L. Eirich  
Associate Director
